

Immunization Clinic

402-232-2273, ext. 3441 or 402-294-7310

The Immunization Clinic provides immunizations on a walk-in basis (0730-1600) for all eligible beneficiaries. Routine vaccinations, yellow fever and Tuberculin (TB) skin tests are administered during normal duty hours. TB skin tests will not be administered on Thursday or when 48-72 hour reading window falls on a holiday, down day, or training day.

A schedule for pediatric immunizations is available in the clinic.

Smallpox Clinic is conducted the first Tuesday of each month at 0745 in the Immunizations Clinic.

Patients who have received vaccines from an off-base provider or clinic are required to bring an official copy of record in to be transferred before services can be provided.

Immunization record requests should be marked Attn: Immunizations and faxed to (402)-294-2661
